Rizzoli International Publications, United States, 2017. Hardback. Condition: New. Language: English . Brand New Book. The first publication of the Barnes Foundation's important and extensive African art collection. The Barnes Foundation is renowned for its astonishing collection of Postimpressionist and early Modern art assembled by Albert C. Barnes, a Philadelphia pharmaceutical entrepreneur. Less known is the pioneering collection of African sculpture that Barnes acquired between 1922 and 1924, mainly from Paul Guillaume, the Paris-based dealer. The Barnes Foundation was one of the first permanent installations in the United States to present objects from Africa as fine art. Indeed, the African collection is central to understanding Barnes's socially progressive vision for his foundation. This comprehensive volume showcases all 123 objects, including reliquary figures, masks, and utensils, most of which originated in France's African colonies-Mali, Cote d'Ivoire, Gabon, and the Congo-as well as in Sierra Leone, Republic of Benin, and Nigeria. Christa Clarke considers the significance of the collection and Barnes's role in the Harlem Renaissance and in fostering broader appreciation of African art in the twentieth century. In-depth catalogue entries by noted scholars in the field complete the volume.
