Biodiversity and Conservation

By Namita Joshi, P.C. Joshi

APH Publishing Corporation, 2009. Hardcover. Book Condition: New. The concept, knowledge and mass awareness about our Biological diversity is one of the most talked about subject of 21st century. Obviously because human Survival is directly linked to its ambient biological diversity of Kaleidoscopic nature. As a result imparting Knowledge of to our future generation, on this subject has become most Essential for the sake of nature. However, the subject is vast like an ocean, embracing vast array of floral and Faunal diversity including the microorganisms present over the planet earth. The conservation of this entire spectrum of diversity is vitally essential for maintaining the ecological Balance of the Environment as well as for the survival of the most intelligent Species on the earth, the Homo sapiens, who is but solely responsible for the pathetic condition of our Natural resources. This book is a humble of students, researchers and specialists about some selected aspects related to biological diversity-to begin with. The book Biodiversity and Conservation has nine chapters, dealing with General to specific aspects of the discipline in its own way. Chapter one covers the various definitions, extent, value and causes of Loss of biological diversity at local, national and global levels....
