It is fantastic and great. It is written in easy words and phrases instead of confusing. I am just delighted to explain how this is actually the best book I have got read through during my individual life and might be the finest publication for ever.

Excerpt from Galileo Galilei: And the Roman Curia We have also set ourselves another task namely, to throw as much light as possible, by means of authentic documents, on the attitude Galileo assumed towards the Roman curia, and the history of the persecutions which resulted from it. To this end, however, it appeared absolutely necessary to give, at any rate in broad outline, a sketch of his aims and achievements as a whole. For his conflict with the ecclesiastical power was but the inevitable consequence of his subversive telescopic discoveries and scientific reforms. It was necessary to make the intimate connection between these causes and their historical results perfectly intelligible.
