

Remote Sensing of the Earth from Space: Atmospheric Correction

Filesize: 5.3 MB

Reviews

I actually started out reading this article ebook. This is for those who statte that there had not been a worth reading. Its been developed in an extremely easy way and it is just after i finished reading this book in which in fact modified me, change the way i really believe.

REMOTE SENSING OF THE EARTH FROM SPACE: ATMOSPHERIC CORRECTION

To get **Remote Sensing of the Earth from Space: Atmospheric Correction** eBook, please access the button beneath and save the file or get access to additional information that are have conjunction with REMOTE SENSING OF THE EARTH FROM SPACE: ATMOSPHERIC CORRECTION ebook.

Condition: New. Publisher/Verlag: Springer, Berlin | The monograph being proposed for the English-speaking research community is concentrated on the atmospheric correction of satellite images as a part of thematic interpretation procedures while processing remote sensing data. For linguistic reasons a large section of the community may have been unaware of the progress made in Russia in this field of science and technology. Meanwhile, Russia was the first country to launch the first artificial satellite in 1957 and to obtain from space for the first time spectra of the Earth's atmosphere in the 1960's. New applications of the radiation transfer theory for the atmosphere underlying surface system appeared first in Russia in the 1970's. Direct and in verse problems of the atmospheric optics were then formulated giving the scientific basis for studies of natural resources from space. Since that time new mathematical treatments for the atmospheric correction procedures have been widely developed in Russia, including both analytical and numerical techniques to simulate spectral, angular, and spatial distributions of the outgoing radiation in visual and infrared regions. The authors of the book were at the beginning of the scientific approach. A wide range of mathematical improvements to elaborate polynomial approximations for dependencies between atmospheric radiation field and parameters of space surveying was due to the necessity to process satellite images in real time using special software of existed computer means for the studies. | 1 Optical-Physical Models of Atmospheric Aerosol.- 1.1 Complex Optical Models of Atmospheric Aerosol.- 1.2 Application of Mie Theory in Determining the Optical Parameters of Atmospheric Aerosol.- 1.3 Closed Modeling of the Optical Characteristics of Atmospheric Aerosol.- 2 The Radiation-Environment Interaction.- 2.1 Basic Definitions in Photometry.- 2.2 Equations of Interaction Between Radiation and Randomly Inhomogeneous Media.- 2.3 The Filtering Role of the Optical Radiation Sensors.- 2.4...
