Reviews

Unquestionably, this is actually the very best work by any article writer. It usually does not price a lot of. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Add 456 to 510 and we have 967; add 167 and we have 1134; carry this through page 72, which contains 1083 words, and we have 51 left, and the 51st word, carried down the preceding column (2, 71), is deaths. And this gives us: I would rather die a thousand deaths. Death is a common word in the plays; but deaths is quite rare. It occurs but four other times in 1st Henry IV. , and only once in 2d Henry IV. The last 753 word, going up the columns, was from 753 minus 192. The next therefore will be from 753 plus 192945. From the last 945 we deducted 29916. Now we add it, making 974. We deduct 1, 76 (448) and we have 526 left; and carrying it up the next column (2, 76) it brings us to the 79th word, --then. Then was used in that day for than. See 21st line, 1, 76, --(Folio 1623): More then that being which was like to be. (Is there any sense to this Does it grow out of the necessities of the cipher) We return to 257.
