Lulu Press Inc, United Kingdom, 2014. Paperback. Condition: New. Language: Russian . Brand New Book ***** Print on Demand *****.Modern physics is in a mess. More and more incredible theories are propounded about the universe consisting of strings or waves or hyper-dimensional knots or whatever. There is so much nonsense being proposed that one simply cannot believe that the human mind can dream such things. This is a technical book, not designed for the common man. A basic understanding of modern physics is assumed. Essentially, it tweaks the findings of modern physics to make sense of everything in a simple way.
