Journal, Vol. 22: Florida and Louisiana Divisions; June, 2002 (Classic Reprint) (Paperback)

By Society of Sugar Cane Technologists

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Journal, Vol. 22: Florida and Louisiana Divisions; June, 2002 The column experiment demonstrated that Si slag adsorbed mobile P considerably better than lime and had appreciably less P leaching than the lime treatment in all soils investigated (figures 1 This effect may have been caused by the action of several mechanisms. For example, Si slag contains Si, Al and Fe compounds and it is possible that both chemical and physical P adsorption mechanisms by Si slag were involved. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
