A PLATFORM FOR AUTONOMOUS, FACADE INTEGRATED ROOM CONTROL

Apprimus Wissenschaftsver Jun 2017, 2017. Taschenbuch. Condition: Neu. Neuware - Active systems in a building have enormous potential in terms of sustainability and comfort. While they are still not very much integrated in early design phases, many building concepts implicitly and strongly rely on such technical systems. Due to the complex configuration of active system components, which is crucial for the success of an installation, most buildings, once erected, are driven far from optimum. When operation starts, programmers of the...
