Brand New Book ***** Print on Demand *****.How many times have you come home from work after a long day and thought, there has to be a better way to earn a living? Far too many employers have adopted a less than understanding and caring attitude towards their hardworking employees. They know if they lose an employee there are dozens of other candidates waiting right behind them. Things are tough. Families are finding it harder than ever to make ends meet - even families with more than one income. Compound this with the ever-changing unemployment rate and we realize that many people are just one paycheck away from financial disaster. A down economy isn't the only reason why so many people start their own businesses. Independence, freedom, individuality and a desire to ditch the daily 9 to 5 grind are often first and foremost for many people. We've all been there - stuck in a dead-end job, with no foreseeable future. It can be downright depressing. How great would it be to wake up every morning, commute to your living room and be in charge of your own day? Stay at home moms (SAHMs) understand the importance of squeezing every last penny out of a household budget. It's difficult supporting a family on a single income, but raising small children at home, rather than sending them off to an expensive daycare, is often a priority. A part-time, home based business can boost the family finances in ways many moms never thought possible. How To Choose, Operate and Market Your Home-Based Business provides a wealth of information, gathered from personal experience, as well as from meticulous research. The information provided here will help you assess your skills, choose...
