Complete guideline for publication fans. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

It may be that Overchurch is a corruption of Ofer s Ring . This circle is marked by several stones recorded on 19th century OS maps and more recent limited geophysical surveys. Even stranger there are obvious geometrical links between the circle and the Saxon-Norman church site which sits with its graveyard on a large raised platform. Early Christian churches were often sited on much earlier pagan sites and the professor demonstrates how the church position and scale are intimately defined by the platform geometry. Even more surprising the construction lines defining the platform design point to the rising and setting points of the Sun on the horizon at the solstices, equinoxes and pagan cross-quarter day festivals such as May Day and Halloween. The same markers survive in the positions of the great circle stones. The circle is 1176ft in diameter or 173 megalithic rods. This would make it 4X the size of Stonehenge and the largest stone circle in Britain. Over half the circle is now covered by roads and houses but half is still accessible. A full geophysical survey of the circle s path should be undertaken before all of this important listed site is lost. Gravestones from the abandoned Overchurch are still being taken for local garden rockeries. Remarkably Overchurch is not alone. A mile to the south Professor Gregg analyses a set of three giant circles at...
