LONG LIFE SUDOKU 6: SUDOKU IS MY LIFE STYLE #6 (PAPERBACK)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.You would imagine that with such a name this puzzle originated in Japan, but it has been around for many years in the United States and in the UK. However, the Japanese found an example under the title Number Place in an American magazine and translated it as something quite different: su meaning number and doku meaning single unit. It immediately caught on in Japan where number puzzles were much more prevalent than word puzzles. Crosswords don't work very well in the Japanese language. To complete the Sudoku puzzle requires a lot of patience as well as the ability to think logically. The basic layout of the Sudoku grid is much like a chess game or crossword puzzles. Sudoku is not just a mathematical or arithmetic type of puzzle. It works just as well if the numbers are substituted with letters or other symbols. However, numbers work best. The bottom line is that Sudoku is a fascinating new puzzle game that has taken the world by surprise and storm. Are you ready for these game puzzles?.
