You ll love The Proteus Cure. - Michael Palmer, NY Times best selling author of Political Suicide In medical ethics, the line between right and wrong is often blurred. Who is to decide what is for the good of humanity? Changing the world. One person at a time. That is the mission statement of Tethys Hospital, run by Dr. Bill Gilchrist and his deformed sister, Abra. VG723, their revolutionary stem-cell-based therapy, appears to be capable of doing just that for the cancer patients who come to Tethys. VG723 is often their last hope. But if they match the protocol, they re virtually guaranteed a cure. Dr. Sheila Takamura, a young, dedicated oncologist, is proud to be involved in the clinical trials. Once the FDA approves it for widespread use, VG723 will revolutionize cancer therapy. That is why she s alarmed when former patients...
