

Starter's Guide to Music Theory and Analysis: Tonal System (Paperback)

By Dr Murat Yakin

Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This is a step by step guide for music theory and analysis for the beginners. From basics of musical notation to the principles of tonality, all of the difficult subjects of music theory are explained in detail, with demonstrations. The student is prepared for analysis studies step by step. The exercises provided at the end of each chapter (and sometimes extra exercises in the middle of a chapter) are designed for the student to develop what she/he learned by reading and prepare herself/himself for the next challenge. Music theory is generally a scary subject for musicians. This is not true for a person who is capable of developing connections between different aspects of music theory and is able to practice them in a fluid way. That is because the practice holds the analytical secrets inside and the person who opens it is awarded. For most of the students, practicing scales or practicing chords of a scale is something just very very low profile work. The fingers memorize which key on the piano to be pressed in which order when the...

This pdf may be really worth a read, and superior to other. It generally does not price too much. Once you begin to read the book, it is extremely difficult to leave it before concluding.
