They are beyond anything you can do. except run. - Henry (last known words) Who are they? What are they? The world of supernatural lore knows them only as marchers. Ancient ethereal predators from beyond the veil. For centuries they have hunted humans, silently, relentlessly. With no concept of mercy, they cannot be pleaded with, and pursue their victims to the death - those whom by unholy mischief or betrayal, become marked. Once a marcher has latched on, the hunted have only one option - to run, for as long as possible, with a desperation to pass the mark onto some other unwitting soul, and hope the new victim can as well, lest the mark fall back to them after that person is caught and devoured. Troy Terrill, a young upstart in the game of paranormal investigation, finds himself the only hope of not one, but two cursed people with marchers on their trail. Can he rid them of their pursuing abominations? Can anyone? Don't dwell upon the answer too deeply, the act of pondering a marcher gives it your scent. Rob Foster is the author of other well-reviewed novels in the humorous, science fiction and superhero genres. He lives and writes in the mysterious mountains of central California, near Sequoia National Forest.
