

Harvesting Color: How to Find Plants and Make Natural Dyes

Filesize: 9.58 MB

Reviews

The book is great and fantastic. I could comprehend almost everything using this published e publication. I am just very happy to explain how here is the very best ebook i have study inside my very own existence and could be the greatest book for ever.
(Mekhi Marvin DVM)

HARVESTING COLOR: HOW TO FIND PLANTS AND MAKE NATURAL DYES

Artisan. Paperback. Condition: New. 192 pages. Dimensions: 10.0in. x 8.0in. x 0.8in. Selection of the Crafters Choice Book Club Beautiful natural dyes from plants found in the wild or grown in your own backyard. As more and more crafters are discovering, dyeing your own fabric can yield gorgeous colors. Now master dyer Rebecca Burgess identifies 36 plants that will yield beautiful natural shades and shows how easy it is to make the dyes. Pokeweed creates a vibrant magenta, while a range of soft lavender shades is created from elderberries; indigo yields a bright blue, and coyote brush creates stunning sunny yellows. Gathering Color explains where to find these plants in the wild (and for those that can be grown in your backyard, how to nurture them) and the best time and way to harvest them; maps show the range of each plant in the United States and Canada. For the dyeing itself, Burgess describes the simple equipment needed and provides a master dye recipe. The book is organized seasonally; as an added bonus, each section contains a knitting project using wools colored with dyes from plants harvested during that time of the year. With breathtaking color photographs by Paige Green throughout, Gathering Color is an essential guide to this growing field, for crafters and DIYers; for ecologists and botanists; and for artists, textile designers, and art students. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
