Brand New Book ***** Print on Demand *****.Excerpt from The Loose Leaf System of Laboratory Notes, for Guidance in the Dissection and Elementary Study of Animal Types Instructors in biology very generally direct the laboratory work by means of written or printed guides placed in the hands of the student. These are sometimes hastily prepared for the occasion, and come from the mimeograph or typewriter abounding in misprints and various other errors. If more carefully elaborated, the sheets furnished the student at various times are not uniform in size and will not fit in with any system of notes which he may be keeping. The Loose Leaf guides are the results of several years experience in directing zoological work in high school and college laboratories. The sheets outlining the work on each type of animal are separate, so that they may be incorporated with the student's drawings and notes on that particular type. The recorded information on the subject is thus collected together, not only simplifying at the time the work of studying the specimen, taking notes, and indexing the drawings, but making...
