

Transactions on Edutainment III

By Chang, Maiga / Pan, Zhigeng

Condition: New. Publisher/Verlag: Springer, Berlin | With great pleasure we would like to present the third volume of the journal Transactions on Edutainment. This journal, part of the Springer series Lecture Notes in Computer Science, is devoted to research and development in the field of edutainment. Edutainment, also known as educational entertainment or entertainment-education, denotes all forms of entertainment designed to educate as well as to provide fun. This approach is motivated by the growing demands on individuals for life-long learning and the need to integrate effective learning opportunities throughout life. As such, edutainment has attracted increasing interest in the last few years. The first 12 articles of this issue represent a selection of outstanding contributions from Edutainment 2009, the 4th International Conference on E-Learning and Games held in Canada, in August 2009. The main purpose of the Edutainment conferences is the discussion, presentation, and information exchange of scientific and technological developments in the new community. These 12 papers cover mainly the topic of using games to stimulate learners' learning motivation, i. e. | Engaging Kids with the Concept of Sustainability Using a Commercial Video Game - A Case Study.- Engaging Kids with the Concept of Sustainability Using...
