Reviews

Thorough guideline! Its this type of good read. It is really simplistic but shocks from the 50 percent from the publication. It is extremely difficult to leave it before concluding, once you begin to read the book.

THE OLD INDIAN SETTLEMENTS AND ARCHITECTURAL STRUCTURES IN NORTHERN CENTRAL AMERICA (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Old Indian Settlements and Architectural Structures in Northern Central America All the Indians of northern Central America have In earlier days lived, as they still do in our day, in wooden huts covered with grass or palm leaves, and more durable edifices were raised only for purposes of worship or of warfare, perhaps also to serve as homes for the highest Spiritual and other dignitaries, in which cases earth and stone, and in times of higher refinement, even mortar, were employed. Of such only ruins are in existence, and they will therefore form the principal subject of this work. The fact that in our day the majority of Indians live in remote regions, far from Spanish influences and scattered in separate homes, or in small clusters of houses, would seem to justify the presumption that a similar system may have prevailed in pre-columbian times. Nevertheless, the Indians had besides, in those days, larger centers of population, such as surrounded their places of worship, within carefully fortified localities, or their royal residences, the salines, gold washings, and the like. It must be borne in mind, however, that these centers of population held only at fixed times larger numbers, as at times of religious festivals and devotional meetings; the fortresses only in times of war, the salines in the dry seasons, when alone salt could be made.
