Lion Hudson Plc. Paperback. Book Condition: new. BRAND NEW, Pascal's Wager: The Man Who Played Dice with God, James A. Connor, A child prodigy, Pascal made essential additions to Descartes' work at the age of 16. By the age of 19, he had invented the world's first mechanical calculator. But despite his immense contributions to modern science, it is Pascal's wager with God that set him apart as a man fully engaged with both religious and scientific pursuits. One night in 1654, Pascal had a visit from God, an experience that would change his life. Struggling to explain God's existence to others, he dared apply his mathematical work to religious faith. He argued for the existence of God basing his position on outcomes - his famous wager. By applying to the existence of God the same rules that governed the existence and position of the universe, Pascal sounded the death knell for medieval 'certainties', paving the way for modern thinking.
