

The Cosmic Serpent : DNA and the Origins of Knowledge

By Jeremy Narby

Phoenix. Taschenbuch. Condition: Neu. Neuware - Whilst living amongst Peruvian Indians, anthropologist Jeremy Narby learned of their phenomenal knowledge of plants and biochemical interactions, gained under the influence of the hallucinogen ayahuasca. Despite his initial scepticism, Narby found himself engaged in an increasingly obsessive quest. He researched cutting-edge scholarship in subjects as diverse as molecular biology, shamanism, neurology and mythology, which led him inexorably to the conclusion that the Indians' claims were literally true: to a consciousness prepared with drugs, biochemical knowledge could indeed be transmitted, through DNA itself. 272 pp. English.

The most effective ebook i possibly go through. I am quite late in start reading this one, but better then never. Its been designed in an extremely basic way and it is just after i finished reading this ebook by which basically transformed me, modify the way i believe.
