Forgotten Books. Paperback. Condition: New. This item is printed on demand. 102 pages. Dimensions: 9.0in. x 6.0in. x 0.2in. Excerpt from Religious Aspects of Scientific Healing: A Psycho-Analytic Guide Written, From the Patients Point of View. Among books aiming at the improvement of life through knowledge of the laws of the mind I believe that this little work will gain for itself honorable recognition. Long and constantly increasing as this series of writings is, the combination of the rational and religious treatment which characterizes Mr. Johnstons essay is but scantily represented in it. Works on mental therapeutics fall, with few exceptions, into two distinct classes. One of these aims at being strictly scientific. It deals with those affections of the mind which apparently rest on no organic lesion or progressive deterioration of the brain and the nervous system. It approaches the subject through the refined methods and the terminology of abnormal psychology, at present almost exclusively the psychology of Freud.
