Predator Paradox: Ending the War with Wolves, Bears, Cougars, and Coyotes (Paperback)

By John A. Shivik

Beacon Press, United States, 2015. Paperback. Condition: New. Reprint. Language: English . This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. An expert in wildlife management tells the stories of those who are finding new ways for humans and mammalian predators to coexist. Stories of backyard bears and cat-eating coyotes are becoming increasingly common--even for people living in non-rural areas. Farmers anxious to protect their sheep from wolves aren't the only ones concerned: suburbanites and city dwellers are also having more unwanted run-ins with mammalian predators. And that might not be a bad thing. After all, our government has been at war with wildlife since 1914, and the death toll has been tremendous: federal agents kill a combined ninety thousand wolves, bears, coyotes, and cougars every year, often with dubious biological effectiveness. Only recently have these species begun to recover. Given improved scientific understanding and methods, can we continue to slow the slaughter and allow populations of mammalian predators to resume their positions as keystone species? As carnivore populations increase, however, their proximity to people, pets, and livestock leads to more conflict, and we are...
