MULTILEVEL PROJECTION METHODS FOR PARTIAL DIFFERENTIAL EQUATIONS (PAPERBACK)

Society for Industrial Applied Mathematics,U.S., United States, 1992. Paperback Condition: New. Language: English . Brand New Book. The multilevel projection method is a new formalism that provides a framework for the development of multilevel algorithms in a very general setting. This methodology guides the choices of all the major multilevel processes, including relaxation and coarsening, and it applies directly to global or locally-refined discretizations. This book was developed from lectures at the CBMS-NSF Regional Conference on Multigrid and Multilevel Adaptive...
