

Innovation, Evolution and Complexity Theory (Hardback)

Filesize: 3.86 MB

Reviews

Basically no words and phrases to describe. It is really simplified but unexpected situations in the fifty percent of your book. I am delighted to let you know that here is the very best publication i have got go through within my very own lifestyle and might be he greatest publication for actually.

INNOVATION, EVOLUTION AND COMPLEXITY THEORY (HARDBACK)

To read **Innovation, Evolution and Complexity Theory (Hardback)** PDF, remember to access the web link listed below and save the file or have access to other information that are related to INNOVATION, EVOLUTION AND COMPLEXITY THEORY (HARDBACK) ebook.

Edward Elgar Publishing Ltd, United Kingdom, 2006. Hardback. Condition: New. Language: English . Brand New Book. The motivation behind this book is the desire to integrate complexity theory into economic models of technological evolution. By means of developing an evolutionary model of complex technological systems, the book contributes to the neo-Schumpeterian literature on innovation, diffusion and technological paradigms. Recent advances in complexity theory provide a new understanding of technological innovation and complex problem-solving. This book offers an approach based on Stuart Kauffman's NK-model of complex systems to better understand and analyse search strategies that firms apply to develop new technologies. The models deal with a range of topics including bounded rationality, myopia, decomposability, modularity and the emergence of technological paradigms. Empirical applications include the evolution of early 18th century steam engine technology, 20th century aircraft and helicopter designs and recent innovations in personal computers. Innovation, Evolution and Complexity Theory makes excellent use of complexity theory and large datasets on technologies with which to complement the analysis. The book will be of great interest to evolutionary and innovation economists and academics as well as scholars in the interdisciplinary field of complexity theory and industrial organisation.
