Reviews

Great electronic book and useful one. It can be written in straightforward terms rather than difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Orientalism focuses on how and to which extent the Orient or the East has been created in western notions. By this means the necessity for postcolonial discourse is highlighted. This so-called rewriting of the past can also be observed in the Asian British diaspora. The movies East is East and Ae fond Kiss can be interpreted as an example for postcolonial discourse and an attempt to break national or ethnic...
