Wipf Stock Publishers, 2016. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Too often conversations on Science and Christianity skate over much deeper assumptions--or perceptions--on the nature and interpretation of Scripture, and the nature of science and of God. Instead, the rhetoric goes quickly towards contentious issues, like evolution, global warming, or genetic engineering, without establishing a framework of mutual understanding. Consequently, conversations can take place between people who completely misunderstand each other because those foundations have not been clearly articulated. In this introductory book you are invited on a journey of discovery, one that makes us self-aware of our starting assumptions. It is only from a framework of critical engagement with both science and the Bible that contemporary issues and the needs of the church and society can be addressed. While the Creator is one who brings order, this book also reminds us that untamed chaos also has a God-ordained place within creation. The author explores the element of chance that seems to be at the heart of nature and shows how this can be incorporated constructively within Christian thinking. Nature is not mere mechanism and is more open than we might first think. This means that miracles are scientifically plausible and prayer can really change things. . . . The polarized positions, from within the church and from skeptics outside, are so loud and so effectively disseminated that it is often difficult for sensible, mediating positions to be heard. But I am encouraged that there are more and more such positions, including this straightforward defense of critical realism. --Mark Noll, Francis A. McAnaney Professor of History, University of Notre Dame; Author of *Jesus Christ and the Life of the Mind* A good book on science and faith needs to be written by...
