Statutory individual income tax rates are the tax rates that apply by law to various amounts of taxable income. Statutory rates lay the foundation for marginal and average effective tax rates, which most economists believe have a greater impact on the economic behavior of companies and individuals than statutory rates. Marginal effective rates reflect the net effect of special tax provisions on statutory rates. They are to be distinguished from average effective rates, which measure someones tax burden. There are seven statutory individual income tax rates in 2013 for ordinary income: 10, 15, 25, 28, 33, 35, and 39. 6. Income from long-term...
