Createspace, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The #1 selling thesaurus on Kindle is now available as a handy desk reference! There are a thousand ways to say something and at least a few hundred to express it well. This is not simply another thesaurus but 2 complete writing lessons which aim to shave a year off of your creative development. This is a bold objective but as you go over these devices, in this brief but powerful tutorial, it will train you to think like a novelist. Let s see how this works: First we start with a character description: Bill has grey hair. This is a fine description, and certainly direct, but let s flex our muscles a little more: Bill s hair is salted with grey. Bill s hair is frosted with age. Bill s hair is threaded with silver. Now try these concept words on your own: peppered, streaked, flecked, weeded You can immediately see the limitations of a traditional thesaurus; they are helpful at supplying literal equivalents, such as charcoal for grey, but frequently miss the finer nuances of language. Beyond the inspirational support most books offer, I can assure you that two things, and only two, are guaranteed to improve your writing. These are reading and the act of writing itself. This is a small but unique literary thesaurus that bridges the gap of reading by taking common descriptive devices and words and places them into usable categories that will serve as a ready toolbox for your own writing. This tutorial is ideal for beginning and intermediate fiction writers.
