Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A Textbook on French Historical Element in Language Teaching. - It is well known that memory retains with greater ease and tenacity that which is understood. An abstract grammatical rule, unaccompanied by explanation or illustration and with no apparent reason for existence, is not only perplexing but is quickly forgotten. To be attractive, grammar should account for its rules. Constant appeals to memory, rather than to reason and judgment, render any subject tiresome and uninteresting; in this work, therefore, reference will frequently be made to facts in the origin and evolution of the French language, whenever such facts will aid in accounting for present idioms or present grammatical forms and constructions. It should be stated, however, that no citations will be made from historical grammar that will require a knowledge of the classics for their comprehension. Language and Grammar Language in General. - In its widest sense, the word language includes every means by which thought or feeling may be made known. Thus, we speak of the various languages of nature, and of the language of painting, sculpture, and architecture. Everything in nature, as well as everything that bears marks of the thought and labor of man, speaks, more or less plainly, a language. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
