PT/PD-GRAPHENE NANOCOMPOSITES FOR ULTRASENSITIVE ETHANOL SENSING

Pt/Pd-Graphene
nanocomposites for
ultrasensitive Ethanol
sensing

LAP Lambert Academic Publishing Sep 2017, 2017. Taschenbuch. Condition: Neu. Neuware - This book contains a brief study on synthesis and application of noble metal graphene composites. A facile synthesis of Pt/Pd alloy nano-particles via chemical reduction method is provided and graphene nanosheets were prepared via modified hummer's method followed by preparation of their composites. Their electrochemical data toward ethanol oxidation was obtained in basic medium, giving interesting outcomes. These results indicate that the catalytic material could be a good...

Reviews

It is really an awesome ebook which i have ever go through. It is actually written in straightforward terms and not confusing. I am very easily could get a satisfaction of reading a written ebook.

-- **Clotilde Wiegand**

Here is the best ebook i actually have go through until now. It really is simplistic but shocks within the fifty percent in the ebook. Your daily life period will probably be transform once you total reading this book.

-- **Elaina Funk**

Comprehensive information for publication enthusiasts. I could possibly comprehend every little thing using this composed e pdf. You can expect to like the way the article writer create this pdf.
