The Invisible Gorilla How Our Intuitions Deceive Us

By Christopher Chabris

Harmony. Paperback. Book Condition: New. Paperback. 320 pages. Dimensions: 7.8in. x 5.1in. x 0.9in. Reading this book will make you less sure of yourself and that's a good thing. In *The Invisible Gorilla*, Christopher Chabris and Daniel Simons, creators of one of psychology's most famous experiments, use remarkable stories and counterintuitive scientific findings to demonstrate an important truth: Our minds don't work the way we think they do. We think we see ourselves and the world as they really are, but we're actually missing a whole lot. Chabris and Simons combine the work of other researchers with their own findings on attention, perception, memory, and reasoning to reveal how faulty intuitions often get us into trouble. In the process, they explain: Why a company would spend billions to launch a product that its own analysts know will fail. How a police officer could run right past a brutal assault without seeing it. Why award-winning movies are full of editing mistakes. What criminals have in common with chess masters. Why measles and other childhood diseases are making a comeback. Why money managers could learn a lot from weather forecasters. Again and again, we think we experience and understand the world as it is, but...
