Not illustrated. 1917 Excerpt: .that will be the most helpful to him when he enters his practical co-operative work at the end of the freshman year. There has been established at the University a student branch of the American Society of Mechanical Engineers to which all junior and senior mechanical engineering students are eligible. Electrical Engineering The department has been accumulating the apparatus and equipment necessary for the installation of a standardizing laboratory. This apparatus and equipment was completed during the past year and installed in room 208 Thaw Hall. We now have available a first class standardizing laboratory which is a great convenience not only to the electrical engineering and physics departments but is used to a considerable extent by outsiders. This-use will undoubtedly be extended from time to time. There has also been installed a sixty thousand volt transformer with all the necessary incidental appliances and connections for the study of high voltages. By the addition of a number of motors and generators the efficiency of the dynamo laboratory has been materially increas Chemical Engineering The Department of Chemical Engineering has continued its co-operation with the Mellon Institute and through the kindness of Director Bacon of the Institute arrangements were made after the resignation of Professor B. T. Brooks to conduct the work in connection therewith. This close co-operation is absolutely necessary but there should be appointed immediately a Professor of Chemical Engineering who can devote his whole time to the students taking work in that department. There...
