iUniverse, United States, 2005. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The Rape Of 2,500 Creditors By The United States Judicial System exposes what occurs when legal procedures are misused by judges and lawyers. A Cancer Foundation was denied \$75 million, to develop the use of alternative medicine to cure cancer. One third of all European cancer patients successfully use alternative medicine. The Foundation has analyzed the legal system. It describes what occurred when a chief executive became ill with pancreatic cancer and was unable to function, and sets forth what can happen to investors, creditors, and even family members. The Constitution of the United States and various laws passed by Congress do not always provide the intended protection. The Expose points out that the legal system needs much reform. This is a document that should be read by every cancer patient, every individual that believes he or she was mistreated by the judiciary and by every retired senior citizen who is financially dependent on his or her retirement funds. The Citizens Foundation for a Cancer Free America, Inc. P. O. Box 805 Arnold, MD 21012 Telephone #: 410-.
