By Augustus Radcliffe Grote

Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Hawk Moths of North America The best months for hunting the larvae of the Hawk Moths are July and August; and one of the most prolific spots, a Vineyard. Caterpillars may be prepared for the Collection in their various stages to illustrate the growth of the species. For this purpose they must be first killed by being placed in a chloroform bottle. The dead caterpillar should then be placed between two pieces of blotting paper and, by a gradually encreasing pressure of the fingers, the contents of the body expressed out of the anus, so that at length nothing is left but the empty skin like the finger of a glove. Care, by avoiding sudden and unequal pressure, must be taken not to break the coloring cells of the skin; with the best of care, however, green caterpillars lose their color under the operation. The empty skin is then to be fastened, by the introduction of a small tube in the vent, to an india rubber inhalator (such as can be had at any drug store) and. Forcing the empty skin gently...
