FORDSON TRACTOR

[DOWNLOAD](#)

Alphascript Publishing. Taschenbuch. Condition: Neu. Neuware - Fordson was a brand name used on a range of mass produced all-purpose tractors manufactured by Henry Ford and Son from 1917 until 1920 when it was merged into the Ford Motor Company, which used the name until 1964. American engineer, inventor, and businessman Henry Ford built experimental tractors from automobile components during the early 1900s, and launched a prototype known as the Model B in August 1915. He formed Henry Ford and Son in 1910 in Dearborn, Michigan, taking his young son Edsel Ford as a partner, which was later incorporated on July 27, 1917. The first Fordson Model F was completed in 1916 and was the first lightweight, mass produced tractor in the world, making it possible for the average farmer to own a tractor for the first time. It went into mass production in 1917 and sold for \$750. The original Fordson used a 20 horsepower, four- cylinder vaporising oil engine, a three-speed spur gear transmission (the three forward speeds ranged from approximately 2 1 4 to 6 1 4 mph), and a worm gear reduction set in the differential. 140 pp. Englisch.
