Shaker Verlag Okt 2005, 2005. Taschenbuch. Condition: Neu. Neuware - Networks, alliances, joint ventures, cooperatives - there is a multitude of cooperative business models and the number of enterprises that rely on cooperation or consider them as a future option is rapidly rising. Therefore, the boundaries of the firm become increasingly blurred and discerning becomes more difficult. Innovations in information and communication technology allow for a more complex design of the interfaces to other enterprises and consequently, structures evolve that are no longer clear-cut enterprises but interwoven networks of enterprises. Evidently, such networks and cooperative structures require new management techniques enabling the corporations to actively design and operate cooperations for the benefit of their companies. 571 pp. Englisch.
